

Know How Now

Technical Support Service Fair & Forum

One Great George Street, SW1P 3AA 6 November 2009 11am-5pm

Know How

More than 60 organisations in the UK alone offer some kind of technical support service to the **development** and **relief** sector.

Entire organisations are dedicated to the cause of **sharing** 'know how' to help **make a difference** in projects around the world.

Agencies invest time, money and some very clever people to help **improve access** to 'know how' for people in the field and for people wanting to find their own solutions.

Now

This public event will bring together leading providers of **technical knowledge** for development and humanitarian relief.

Fair

Your organisation is invited to exhibit its services at a stall in the **fair** and to present its work at drop-in sessions.

Forum

The event will also provide a **forum** for you to discuss ideas and issues with other providers, which might include topics such as: knowledge management; open licensing; new technologies; collaboration and sharing; and private sector knowledge providers.

The forum is **your event** – let us know what you would like to discuss and how you want to use it.
